CONTACT CLEANING SOLUTIONS

PROMOTING EXCELLENCE IN THE ELECTRONICS INDUSTRY

Clark International, Inc is proud to represent SDI.

SDI is the Global Supplier of a Wide Range of Products and a Leader in Providing Contact Cleaning Solutions

SDI offers a complete line of products and services. From contact cleaning equipment, portable clean rooms and dust removal systems, to lamination products and drilling supplies, Systems Division, Inc., consistently emphasizes quality in product performance and value. Our commitment to excellence is what makes the difference.

Contact Cleaning Machine Supplies

Adhesive Rolls – For Tacky Roll Cleaning Machines

SDI Adhesive Rolls are made with a bleached paper liner coated with a custom formulated adhesive and wound on a 3” or 6” diameter core.

- Designed to fit any size contact cleaning machine
- Proprietary custom adhesive, formulated to fulfill all requirements of panel & film cleaning machines

Polymer Rollers – For Tacky Roll Cleaning Machines

SDI Polymer Rolls require no special handling, chemicals or wipes. The tacky polymer of the roller lifts particulate matter from the surface without liquids or sprays. The roller is cleaned during the machine process when it comes in contact with the Adhesive Rolls.

- HIGH TACK (Dark Blue) – Designed for Highly contaminated panels
- STANDARD (Light Blue) – For cleaning flex circuits, artwork, and rigid laminates
- LOW TACK (Green) – Ideal for panels with dry film prior to exposure
- SMC (Yellow) – Silicone free cleaning roller

Contact Cleaning Machines – Contact Clark International directly for your application

Cleaning Products & Clean Room

DRS – Dust Removal System

SDI is proud to be the only supplier in the world to offer such an extensive line of dust removal products to meet your specific cleaning need.

- DRS Cleaning pads (DRS-1) – 9” x 13” tacky pad with 50 easy peel away disposable sheets
- DRS Cleaning pad holders (DRS-4) – Designed to hold the DRS-1 pad and the SDI Hand Roller
- DRS Hand rollers (DRS-6, -12 or -18) – 6”, 12” or 18” wide hand held tacky roller with a range of ergonomically designed handles available. All rollers are available in 3 different tack levels distinguished by color:

HIGH TACK (BLUE) – Use on rigid, thicker substrates.

MEDIUM TACK (RED) – For cleaning flex circuits, artwork, and rigid laminates.

MEDIUM TACK, GENERAL PURPOSE (LIGHT BLUE) – Appropriate for all substrates

outlined above in Medium Tack (RED) level, with special emphasis on thin or delicate substrates.

Lamination Supplies

Nylon Bagging Films - Used in an open hydraulic press to achieve the benefits of vacuum lamination without more costly equipment. Available in .002” & .003” film thicknesses, tubing or bags.

Sealant Tapes - Used in vacuum lamination and autoclave application.

Three available temperature ranges, 40 rolls per case

Drill Room Supplies

Chek-Rite - Visual Drill Inspection tool. 24” x 36” sheets, red or green, 50 per box.

Screen Print Supplies

Register Check -.004” LDPF film engineered for protection of circuit boards during screen print set-up.

UV Exposure Film - Smooth and Embossed Films | .004” UV Exposure films to meet all your requirements.

Wet Process Supplies - PVA Sponge Roll Covers & Roll Covers

Custom made to meet your specific requirements.
